

Construction, Tradies & COVID-19: An Introduction to Best Practice

Prepare for best practice of COVID-19 for your construction trade

This course has been developed with tradespeople in mind. It covers how to manage the risk of COVID-19 in your workplace, whether that's a large site or a small one. Safeguard your staff by providing them with the skills and knowledge on how to protect themselves and customers from COVID-19.

Learn how to develop SWMS and Risk Assessments to address COVID-19 and how to establish a Business Contingency Planning should the need arise.

Construction, Tradies & COVID-19

How will undertaking this course benefit you?

As COVID-19 impacts rapidly on businesses and the community understanding how to manage worksites and staff is of utmost importance.

This course will give you the necessary skills to develop SWMS and Risk Assessments associated with COVID-19 and the impacts on a worksite. It will also provide you with checklists to ensure that you and your teams are managing situations correctly, from the correct PPE to wear to how to manage cleanliness in your workplace.

These are uncertain times so being prepared is a good way to safeguard your business and staff. This course will also provide you with how to develop and implement Business Contingency Plans should the need arise.

Are there any entry requirements?

No.
