Environmental cleaning and disinfection principles for COVID-19

Best Option Training has created an easily understandable and affordable on-line course, in association with the Australasian Infection Control Society, and Biological Services Australia. It contains important facts and information from the World Health Organisation, the Federal Department of Health, and WorkSafe Victoria, and is created in such a way to ensure that employers and employees understand the information.

Topics covered include: Who is at risk, how to carry out proper hygiene practices, how to disinfect surfaces, how to self-isolate, business continuity planning, Safe Travel procedures, Risk Assessment and COVID-19 SWMS,

Environmental Cleaning and Disinfection Course for Cleaners

How will undertaking this course benefit you?

It is critical that employers' supervisors and employees train their staff in strict hygiene, particularly when cleaning residential and commercial projects. Cleaners are required to handle door furniture, window furniture, doors, architraves, and many surfaces which are perfect for transmitting the virus. It is important to sterilise all these surfaces on completion, and to avoid sharing tools without sterilisation. This course will give you the underpinning knowledge of understanding the risks and ensuring best practice is followed when cleaning.

In addition to physical wellness, employers should consider mental health, too, because employers report anxiety among workers as one of the top issues brought on by the coronavirus.

Are there any entry requirements?

No

COST

\$450.00

How is it delivered?

Online.

What do I get from it?

Upon successful completion participants receive a Statement of Participation for Environmental Cleaning and Disinfection Course for Cleaners.

What do I need?

The course can be completed from home on any internet connected device, including phones, tablets, laptops or PC and a forward facing camera.

Email your expression of interest to info@bot.edu.au and one of the team will be in touch.
